

## **D4.2 – Report on (joint) degree prescriptions**

### **Attachment 2 – Questionnaire ‘Prescriptions and practice in the co-awarding of degrees within joint programmes’.**

The purpose of this survey, alongside the collection of samples of diploma models, is to obtain structured information on both prescriptions (national, regional, institutional) and institutional administrative practice in the awarding of degrees in the context of joint programmes. The information obtained should enable the EDLab project to provide guidance in defining the common elements, obstacles and possible solutions to the joint awarding of degrees in general, and in particular for programmes that in the future may carry a joint European degree label and that would want to make this visible, either through a separate additional certificate or by inclusion of a distinctive elements on the diploma and/or its supplement.

This survey is designed by Ghent University as part of WP4 'design and testing of the European Degree label' in the EDLab project.

## Part I: Preparing the diploma and diploma supplement locally

The below section comprises questions on the joint, double, multiple diploma and diploma supplement drawn up, issued and awarded locally by your higher education institution in the context of a joint study programme (EQF 6, 7, 8). Throughout the survey, this is referred to as '*coordinating institution*'. This is to be distinguished from 'partner university', who co-awards but does not physically prepare the diploma.
